

113TH CONGRESS
1ST SESSION

S. 1508

To authorize the Administrator of the Environmental Protection Agency to establish a program of awarding grants to owners or operators of water systems to increase the resiliency or adaptability of the systems to any ongoing or forecasted changes to the hydrologic conditions of a region of the United States.

IN THE SENATE OF THE UNITED STATES

SEPTEMBER 17, 2013

Mr. CARDIN (for himself, Mrs. BOXER, and Mr. REID) introduced the following bill; which was read twice and referred to the Committee on Environment and Public Works

A BILL

To authorize the Administrator of the Environmental Protection Agency to establish a program of awarding grants to owners or operators of water systems to increase the resiliency or adaptability of the systems to any ongoing or forecasted changes to the hydrologic conditions of a region of the United States.

1 *Be it enacted by the Senate and House of Representa-*

2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Water Infrastructure

5 Resiliency and Sustainability Act of 2013”.

1 **SEC. 2. DEFINITIONS.**

2 In this Act:

3 (1) ADMINISTRATOR.—The term “Administrator” means the Administrator of the Environmental Protection Agency.

6 (2) HYDROLOGIC CONDITION.—The term “hydrologic condition” means the quality, quantity, or reliability of the water resources of a region of the United States.

10 (3) OWNER OR OPERATOR OF A WATER SYSTEM.—

12 (A) IN GENERAL.—The term “owner or operator of a water system” means an entity (including a regional, State, tribal, local, municipal, or private entity) that owns or operates a water system.

17 (B) INCLUSIONS.—The term “owner or operator of a water system” includes—

19 (i) a non-Federal entity that has operational responsibilities for a federally, tribally, or State-owned water system; and

22 (ii) an entity established by an agreement between—

24 (I) an entity that owns or operates a water system; and

26 (II) at least 1 other entity.

1 (4) WATER SYSTEM.—The term “water sys-
2 tem” means—

3 (A) a community water system (as defined
4 in section 1401 of the Safe Drinking Water Act
5 (42 U.S.C. 300f));

6 (B) a treatment works (as defined in sec-
7 tion 212 of the Federal Water Pollution Control
8 Act (33 U.S.C. 1292)), including a municipal
9 separate storm sewer system (as that term is
10 used in that Act (33 U.S.C. 1251 et seq.));

11 (C) a decentralized wastewater treatment
12 system for domestic sewage;

13 (D) a groundwater storage and replenish-
14 ment system;

15 (E) a system for transport and delivery of
16 water for irrigation or conservation; or

17 (F) a natural or engineered system that
18 manages floodwater.

19 **SEC. 3. WATER INFRASTRUCTURE RESILIENCY AND SUS-
20 TAINABILITY.**

21 (a) PROGRAM.—The Administrator shall establish
22 and implement a program, to be known as the “Water
23 Infrastructure Resiliency and Sustainability Program”,
24 under which the Administrator shall award grants for each
25 of fiscal years 2014 through 2018 to owners or operators

1 of water systems for the purpose of increasing the resil-
2 iency or adaptability of the water systems to any ongoing
3 or forecasted changes (based on the best available research
4 and data) to the hydrologic conditions of a region of the
5 United States.

6 (b) USE OF FUNDS.—As a condition on receipt of
7 a grant under this Act, an owner or operator of a water
8 system shall agree to use the grant funds exclusively to
9 assist in the planning, design, construction, implementa-
10 tion, operation, or maintenance of a program or project
11 that meets the purpose described in subsection (a) by—

12 (1) conserving water or enhancing water use ef-
13 ficiency, including through the use of water metering
14 and electronic sensing and control systems to meas-
15 ure the effectiveness of a water efficiency program;

16 (2) modifying or relocating existing water sys-
17 tem infrastructure made or projected to be signifi-
18 cantly impaired by changing hydrologic conditions;

19 (3) preserving or improving water quality, in-
20 cluding through measures to manage, reduce, treat,
21 or reuse municipal stormwater, wastewater, or
22 drinking water;

23 (4) investigating, designing, or constructing
24 groundwater remediation, recycled water, or desali-

1 nation facilities or systems to serve existing commu-
2 nities;

3 (5) enhancing water management by increasing
4 watershed preservation and protection, such as
5 through the use of natural or engineered green in-
6 frastructure in the management, conveyance, or
7 treatment of water, wastewater, or stormwater;

8 (6) enhancing energy efficiency or the use and
9 generation of renewable energy in the management,
10 conveyance, or treatment of water, wastewater, or
11 stormwater;

12 (7) supporting the adoption and use of ad-
13 vanced water treatment, water supply management
14 (such as reservoir reoperation and water banking),
15 or water demand management technologies, projects,
16 or processes (such as water reuse and recycling,
17 adaptive conservation pricing, and groundwater
18 banking) that maintain or increase water supply or
19 improve water quality;

20 (8) modifying or replacing existing systems or
21 constructing new systems for existing communities
22 or land that is being used for agricultural production
23 to improve water supply, reliability, storage, or con-
24 veyance in a manner that—

(A) promotes conservation or improves the efficiency of use of available water supplies; and

(B) does not further exacerbate stresses on ecosystems or cause redirected impacts by degrading water quality or increasing net greenhouse gas emissions;

(9) supporting practices and projects, such as improved irrigation systems, water banking and other forms of water transactions, groundwater recharge, stormwater capture, groundwater conjunctive use, and reuse or recycling of drainage water, to improve water quality or promote more efficient water use on land that is being used for agricultural production;

(10) reducing flood damage, risk, and vulnerability by—

(A) restoring floodplains, wetland, and upland integral to flood management, protection, prevention, and response;

(B) modifying levees, floodwalls, and other structures through setbacks, notches, gates, removal, or similar means to facilitate reconnection of rivers to floodplains, reduce flood stage height, and reduce damage to properties and populations;

(D) promoting land use planning that prevents future floodplain development;

(12) developing and implementing measures to increase the resilience of water systems and regional and hydrological basins, including the Colorado River Basin, to rapid hydrologic change or a natural disaster (such as tsunami, earthquake, flood, or volcanic eruption).

17 (c) APPLICATION.—To seek a grant under this Act,
18 the owner or operator of a water system shall submit to
19 the Administrator an application that—

20 (1) includes a proposal for the program, strat-
21 egy, or infrastructure improvement to be planned,
22 designed, constructed, implemented, or maintained
23 by the water system;

24 (2) provides the best available research or data
25 that demonstrate—

(A) the risk to the water resources or infrastructure of the water system as a result of ongoing or forecasted changes to the hydrologic system of a region, including rising sea levels and changes in precipitation patterns; and

(B) the manner in which the proposed program, strategy, or infrastructure improvement would perform under the anticipated hydrologic conditions;

(3) describes the manner in which the proposed program, strategy, or infrastructure improvement is expected—

(A) to enhance the resiliency of the water system, including source water protection for community water systems, to the anticipated hydrologic conditions; or

(B) to increase efficiency in the use of energy or water of the water system; and

(4) describes the manner in which the proposed program, strategy, or infrastructure improvement is consistent with an applicable State, tribal, or local climate adaptation plan, if any.

23 (d) PRIORITY.—

1 Act, subject to section 4(b), the Administrator shall
2 give priority to owners or operators of water systems
3 that are, based on the best available research and
4 data, at the greatest and most immediate risk of
5 facing significant negative impacts due to changing
6 hydrologic conditions.

7 (2) GOALS.—In selecting among applicants de-
8 scribed in paragraph (1), the Administrator shall en-
9 sure that, to the maximum extent practicable, the
10 final list of applications funded for each year in-
11 cludes a substantial number that propose to use in-
12 novative approaches to meet 1 or more of the fol-
13 lowing goals:

14 (A) Promoting more efficient water use,
15 water conservation, water reuse, or recycling.

16 (B) Using decentralized, low-impact devel-
17 opment technologies and nonstructural ap-
18 proaches, including practices that use, enhance,
19 or mimic the natural hydrological cycle or pro-
20 tect natural flows.

21 (C) Reducing stormwater runoff or flood-
22 ing by protecting or enhancing natural eco-
23 system functions.

(D) Modifying, upgrading, enhancing, or replacing existing water system infrastructure in response to changing hydrologic conditions.

(E) Improving water quality or quantity for agricultural and municipal uses, including through salinity reduction.

7 (F) Providing multiple benefits, including
8 to water supply enhancement or demand reduc-
9 tion, water quality protection or improvement,
10 increased flood protection, and ecosystem pro-
11 tection or improvement.

12 (e) COST-SHARING REQUIREMENT.—

13 (1) FEDERAL SHARE.—The share of the cost of
14 any program, strategy, or infrastructure improve-
15 ment that is the subject of a grant awarded by the
16 Administrator to the owner or operator of a water
17 system under subsection (a) paid through funds dis-
18 tributed under this Act shall not exceed 50 percent
19 of the cost of the program, strategy, or infrastruc-
20 ture improvement.

21 (2) CALCULATION OF NON-FEDERAL SHARE.—

22 In calculating the non-Federal share of the cost of
23 a program, strategy, or infrastructure improvement
24 proposed by a water system in an application sub-

1 mitted under subsection (c), the Administrator
2 shall—

3 (A) include the value of any in-kind serv-
4 ices that are integral to the completion of the
5 program, strategy, or infrastructure improve-
6 ment, including reasonable administrative and
7 overhead costs; and

8 (B) not include any other amount that the
9 water system involved receives from the Federal
10 Government.

11 (f) DAVIS-BACON COMPLIANCE.—

12 (1) IN GENERAL.—All laborers and mechanics
13 employed by contractors and subcontractors on
14 projects funded directly by or assisted in whole or in
15 part by this Act shall be paid wages at rates not less
16 than those prevailing on projects of a character simi-
17 lar in the locality as determined by the Secretary of
18 Labor in accordance with subchapter IV of chapter
19 31 of part A of subtitle II of title 40, United States
20 Code (commonly referred to as the “Davis-Bacon
21 Act”).

22 (2) AUTHORITY.—With respect to the labor
23 standards specified in this subsection, the Secretary
24 of Labor shall have the authority and functions set
25 forth in Reorganization Plan Numbered 14 of 1950

1 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of
2 title 40, United States Code.

3 (g) REPORT TO CONGRESS.—Not later than 3 years
4 after the date of enactment of this Act, and every 3 years
5 thereafter, the Administrator shall submit to Congress a
6 report that—

7 (1) describes the progress in implementing this
8 Act; and

9 (2) includes information on project applications
10 received and funded annually under this Act.

11 **SEC. 4. AUTHORIZATION OF APPROPRIATIONS.**

12 (a) IN GENERAL.—There is authorized to be appro-
13 priated to carry out this Act \$50,000,000 for each of fiscal
14 years 2014 through 2018.

15 (b) REDUCTION OF FLOOD DAMAGE, RISK, AND
16 VULNERABILITY.—Of the amount made available to carry
17 out this Act for a fiscal year, not more than 20 percent
18 may be made available to grantees for activities described
19 in subsection (b)(10).
